

CNC Aluminium Hotel Door Lock

Light gold, black, silver, gray

Model: Jezi-W3X

Technical data

Size: 300x76*15mm

Voltage: DC6V, 1.5V AA alkaline battery 4 pcs

Static power consumption: $\leq 20\mu\text{A}$

Dynamic power consumption: $\leq 200\text{mA}$

Working Environment: 20°C~60°C

Main part: Stainless steel

Main material: CNC aluminium

Adopt card: EM4100, T5577, Mifare 1

Special feature

Designers, timeless quality

Inner and outer handles are dissociate

Five tongue connecting structure more safety

Intelligent induction card or mechanical key double opening way

Standard five-bolt mortise lock, reinforced tongue to make sure more sturdy and durable

Low battery voltage alarm function

We Concentrate On Intelligent Door Locks
